

Your CUNYfirst account will grant you access to the following systems/applications.

- **Baruch Email:** Access your Baruch email via <https://outlook.office.com/>
- **Blackboard:** an online course management system which provides access to course materials, assignments, and class discussions. Increasingly, class lectures are made available in video format for review and further study.
 - [Login](#) to Blackboard.
 - [Click here](#) for additional information.
- **CUNYfirst:** A fully integrated resources and services tool that allows students to manage their academic careers and financial accounts in real time and more. It gives faculty additional tools to enhance their interaction with students.
 - [Login](#) to CUNYfirst.
 - [Click here](#) to access how-to guides.
- **Dropbox:** a distributed, cloud-based file storage system that will allow you to share and use files wherever they are. Dropbox can be used from the web, desktops, and mobile devices.
 - [Login](#) to Dropbox.
 - [Click here](#) for additional information.
- **LinkedIn Learning:** An online educational platform that includes over 16,000 expert-led courses across many subject areas with a focus on business, technology-related, and creative skills. Users are able to receive personalized recommendations or discover, complete, and track courses related to their own interests.
 - [Login](#) to LinkedIn Learning
 - [Click here](#) for additional information.
- **MSTeams:** Part of the Office365 suites of applications, MS Teams is a collaboration platform that unifies chat, voice, video and file sharing.
 - [Login](#) to access MS teams.
 - [Click here](#) for additional information.
- **Office365 for Education:** It provides a suite of applications/tools including OneDrive for Business, SharePoint, Yammer, and Skype for Business, as well as widely used Microsoft applications such as Word, Excel, PowerPoint and the downloadable Office ProPlus suite. It also includes 1 TB of storage per user.
 - [Login](#) to Office365
 - [Download](#) the Office ProPlus suite.
 - [Click here](#) for additional information.
- **Zoom:** A communications platform that allows users to connect with video, audio, phone, and chat. Zoom helps consolidate communications, connect people, and collaborate better together.
 - [Login](#) to Zoom.
 - [Click here](#) for additional information.

Your Baruch Username will grant you access to the following systems/applications.

- **Blogs@Baruch:** An on-line publishing platform for Baruch College. It enables members of the Baruch academic community to create individual, group or course blogs in just a few clicks.
 - [Login](#) to Blog@Baruch
 - [Click here](#) to request an account on Blogs@Baruch.
- **Confluence:** Create, collaborate, and organize all your work in one place. Confluence is a team workspace where knowledge and collaboration meet. Dynamic pages give your team a place to create, capture, and collaborate on any project or idea. Spaces help your team structure, organize, and share work, so every team member has visibility into institutional knowledge and access to the information they need to do their best work.
 - [Login](#) to Confluence.
 - [Click here](#) to request access to Confluence.
- **Interfolio Faculty180:** a web-based faculty activity reporting system that provides a convenient, single place for faculty to record their contributions and accomplishments related to research/creative activity, teaching, credentials, and service.
 - [Login](#) to Faculty180
 - [Click here](#) for additional information.
- **Mypassword:** a self-service password management tool that will allow you to reset your Baruch username password as well as configure it with a series of challenging questions that you can then answer if your password is expired, or you have forgotten it.
 - [Login](#) to MyPassword to reset your Baruch Username password.
 - [Click here](#) for additional information.
- **Qualtrics:** It is web-based software that allows the user to create surveys and generate reports without having any previous programming knowledge.
 - [Login](#) to Qualtrics.
 - [Click here](#) for additional information.
- **VPN:** It stands for Virtual Private Network. In our case it's a piece of software (GlobalProtect) that runs on your computer and connects to the campus firewall and creates an encrypted connection between your computer and the Baruch network. This connection means that your computer can access resources that are normally only available if you're on campus. For us this is primarily campus desktops (from which you can access share drives) and Baruch and CUNY-specific servers.
 - [Click here](#) for additional information and to download the VPN client.
- **Web Directory:**
 - [Login](#) to make changes to your directory information.
 - [Click here](#) for additional information.
- **WIFI:** Baruch College provides access to its wireless network (WIFI) to faculty, staff, currently enrolled Baruch College students, and guests.
 - [Click here](#) for instructions on how to access the wifi.
